Read your Micro SD/SDHC card anywhere with the Ewent EW1061 Tiny USB Cardreader! This card reader is very small, so it's easy to use and carry! You can always carry this card reader with you, just add it to your keychain or necklace and you will have this card reader right at hand.

Compact design
The small sized Ewent EW1061 card reader is only 24mm x 14.5mm x 6.8mm (with cap), just as small as a 10ct Euro coin! This tiny design enables you to carry it on your keychain or around your neck with a necklace. So it is ideal for home, office and travel usage!

Card support
This card reader supports Micro SD (1.1, 2.0 and SDHC) and TransFlash (T Flash) cards.

Compatibility
The EW1061 Tiny USB card reader is compatible with Windows ME or higher, Macintosh OS 9.x or higher and Linux kernel 2.4.0 or higher. You don't need any driver to use the cardreader on your computer.

Accessories
The tiny USB card reader is fitted with a hole for a key chain or necklace. The card reader comes with a key chain and USB cap.
